COCKTAIL

"Cocktail is a stimulating liquor, composed of spirits of anykind, sugar, water, & bitters and is supposed to be an excellent electioneering potion, in as much as it renders the heart stout & bold, at the same time that it fuddles the head. It is said, also to be of great use to a democratic candidate, because a person having swallowed a glass of it, is ready to swallow anything else" said by Harry Croswell, a journalist on May, 1806. And it was the first ever published definition of Cocktail.
